Dear Tom,

On behalf of our staff, our students and their parents, I want to sincerely thank you and Enterprise Services Corporation for your generous donation of two Wireless Access Points to the International Community School. One of your gifts made it possible for the school to have a completely wireless extension to the ICS network in our recently built classroom building.

The second Wireless Access Point has provided a much-needed IT component to the network in our main building. Visitors and guests at the school can now join our network to access resources such as the internet connection, printers, temporary disk space for presentations and other needs.

You and your company have made an important contribution to the work that ICS is doing for the benefit of refugee and local children and their parents.

We appreciate these donations as well as the time you have spent at our school working with teachers and consulting with us about our projects.

Sincerely,

A handwritten signature in cursive script that reads "Bill".
